RAPIDIDENTITY

The Most Powerfully Complete
Identity and Access Management
Portfolio and Platform

The Most Complete Identity, Access, Governance, and Administration Capabilities

RapidIdentity is the most complete Identity and Access Management (IAM) platform available, giving organizations greater security, increased business agility, and lower costs of identity and access management. Transform IAM across all users—including employees, contractors, partners, and vendors and ensure the right people, have the right access, from anywhere—for only the time needed.

RapidIdentity is available on-premises, in the cloud, or as a hybrid, with no sacrifices in functionality, features, or security. And RapidIdentity can be deployed in just weeks—not months or years—or at the pace that works best for your organization.

ADMINISTRATION	AUTHENTICATION	AUTHORIZATION	AUDIT

GOVERNANCE, RISK & COMPLIANCE

Whether you need an entire IAM platform or to fill in gaps in your existing technology, we can meet your needs.

ADMINISTRATION
Fully automate user account creation, management, and self-service. Provision and deprovision access to all applications, for all users.

AUTHENTICATION
Confidently verify the identities of all users—at all digital and physical access points—with the right level and type of authentication

AUTHORIZATION
Implement granular user access to systems and applications. Automate delegated controls for time-based access requests and approvals.

AUDIT
Prove compliance with intuitive dashboards and reports on every user's privileges, access requests, and system activity.

Everything You Need in a Single IAM Platform

AUTOMATED LIFECYCLE MANAGEMENT
Streamline provisioning, deprovisioning, account changes, and granting new access rights for employees, contractors, partners, vendors, and customers.

COMPREHENSIVE IDENTITY GOVERNANCE
Gain clear insight into which employees have what access, and ensure security through time-based certification, sponsorship, and re-attestation.

MULTI-FACTOR AUTHENTICATION
Enhance security with MFA at the operating system and application level, as well as the broadest range of authentication methods.

SECURE SINGLE SIGN-ON
Boost productivity with secure SSO access to every on-premise or cloud-based system. RapidIdentity's online portal provides one-click access to any connected system.

PASSWORD MANAGEMENT
Enable end-users to manage their own accounts and reset passwords according to your organization's unique policies, without requiring help desk support.

ACCESS MANAGEMENT
Control access to critical applications and systems at a granular level. Easily adapt to evolving security and compliance requirements.

PRIVILEGED ACCESS MANAGEMENT
Lock-down admin accounts and reduce users with multiple accounts. Grant admin access using automated workflows and time-based accounts.

CONTINUOUS ACCESS CERTIFICATION
Ensure correct access between certification campaigns with time-based controls that approach certification as a continuous activity.

AUTOMATE & STREAMLINE IDENTITY MANAGEMENT OF ALL USERS

RapidIdentity automates the full account lifecycle of both internal employees and external users, including partners, vendors, contractors, and customers, closing the security gaps in your current user identity and access controls and boosting end-user productivity. Rapididentity utilizes workflow-driven user provisioning and multi-directory identity and resource administration to streamline provisioning, managing, and deprovisioning user accounts and application access.

EASILY CONNECT TO ALL APPLICATIONS

Easily integrate cloud, on-premise, and Windows applications. RapidIdentity provides far quicker, more secure, and more cost-effective ways for you to add virtually any application to your business environment. With RapidIdentity, you are not limited to an application catalog, and true single sign-on can be enabled for virtually any application
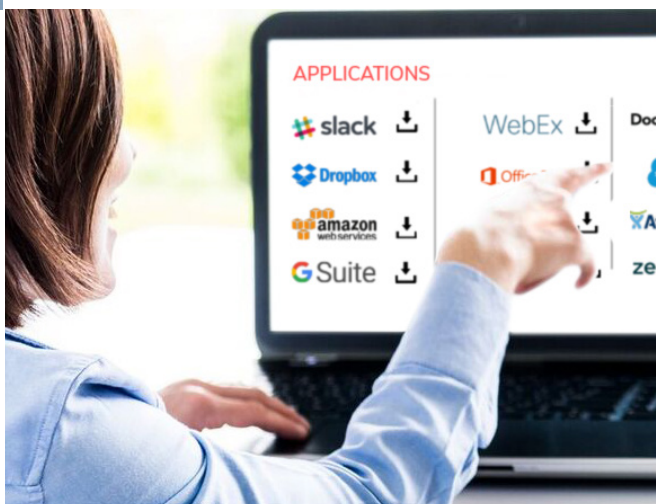

ENHANCE SECURITY & BE 24/7 AUDIT-READY

RapidIdentity locks down access controls and establishes least-privilege access, while adding additional layers of protection with adaptive authentication. So, you can be confident that both your internal and external users have the right access, at the right time, and only for the necessary duration. Ensure your organization is always audit-ready with comprehensive compliance controls and automated workflows that enable your organization to easily demonstrate its current identity state and quickly adapt to compliance changes.
